Good Afternoon All-

Please find attached the Threat Assessment for the **Vikings vs Bills** Game. This is a confidential document that has been put together by our public safety partners and myself. I have also attached a season long threat assessment that the Minnesota Fusion Center put together for us. The Department of Homeland Security reissued the National Terrorism Advisory System Bulletin on 14 September. It is attached. More of the same, no major revisions.

If you have any questions, please let me know.

Have a great day!

Billy
